

SMART TECH

32" HD TV

The 32HN10T2 is a HD LED TV

With brilliant picture quality.

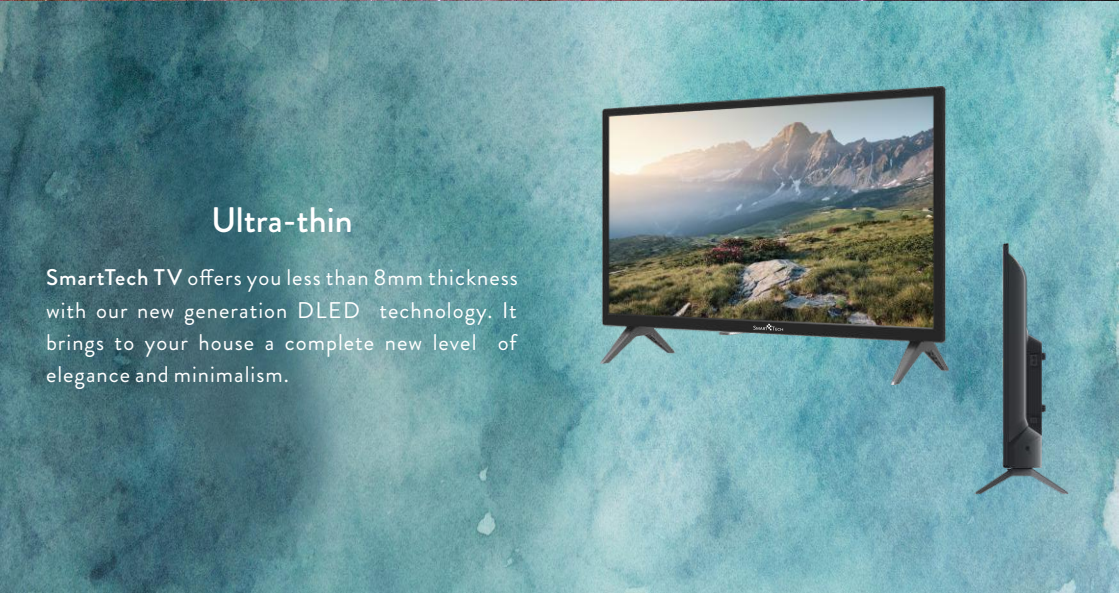

Narrow Design

With the introduction of a new generation optical bonding technology, SmartTech TV frames can be made slimmer. It allows a larger display area while maintaining a neat and contemporary design.

- Wider viewing angles up to 178 degrees
- Immersive viewing experience.

Ultra-thin

SmartTech TV offers you less than 8mm thickness with our new generation DLED technology. It brings to your house a complete new level of elegance and minimalism.

**Metallic look feet
with stable standing**

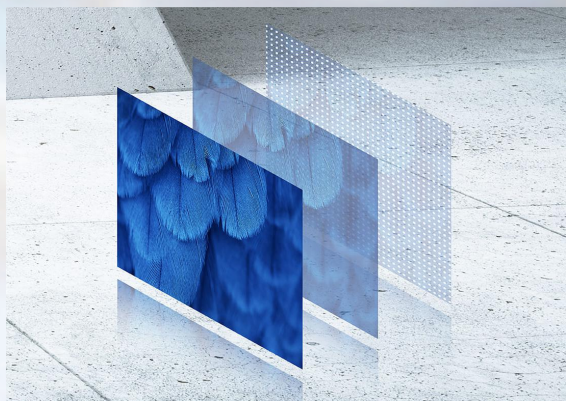

Wall-mountable design

Mount it on the wall to perfectly blend in the interior design.

HD ready

Full screen HD display for crisp and realistic images

D-LED Technology

Enjoy the excellent condition of your Smart-Tech TV no matter in its light and dark contrast or its color performances

H.265 HEVC

VS

H.264

H.265 HEVC 

H.265 High Efficiency Video Coding (HEVC) is an advanced video compressions standard, which offers much better picture quality in the same bit rate when compared to regular H.264 standard.

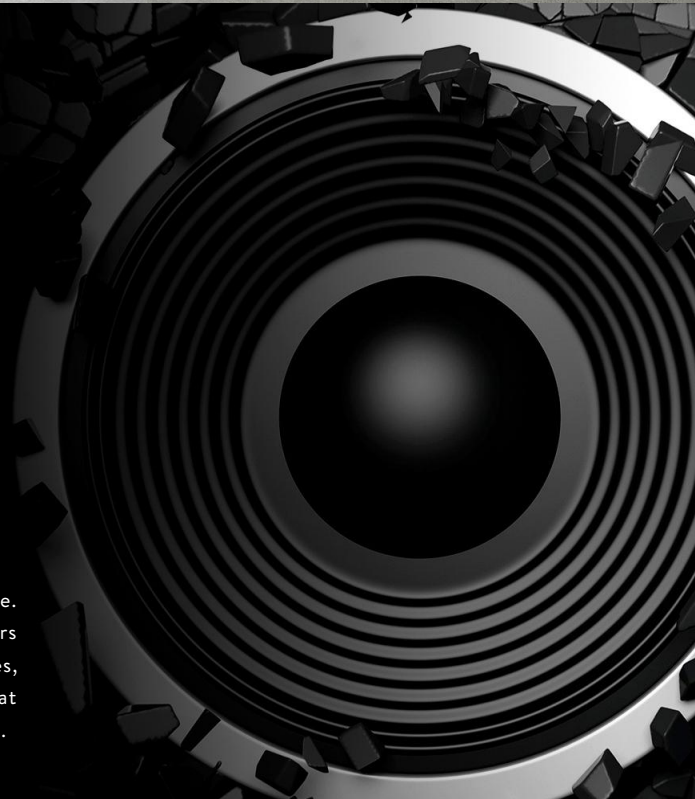

Dolby AUDIO

Amazing sound with Dolby Audio technology. With this technology the TV provides crystal clarity, easy-to-hear dialogue, greater detail, and realistic surround sound to make the entertainment you love even better.

Cuboid Speakers

Providing cinematic viewing experience. The new speakers adopted larger drivers that elevate multiple audio experiences, including stronger bass and echo that could amplify your acoustic immersion.

One-button control

CI Slot

- USB 2
- USB 1
- DVB-T/T2
- DVB-S/S2
- HDMI 1
- HDMI 2
- HDMI 3
- AV IN
- COAXIAL

Multi-function connectors on one side, convenient operation

109.**The ON-mode power consumption was measured in Eco-mode (factory settings)according to IEC 62087, Edition 2.
The power consumption stated upon the Identification label of the TV-set was determined with maximum settings of all parameters regarding picture brightness

110.**Annual energy consumption, based on the power consumption of the television operating ,4 hours per day for 365 days. The actual energy consumption will depend on how television is used.
